About Me

I'm a passionate Full Stack Developer with 1 year of hands-on experience in Laravel, PHP, React, MySQL, RestAPIs. I love building dynamic, user-friendly web applications, and take pride in writing clean, efficient code that solves real-world problems. Always eager to learn and grow, I'm driven by the challenge of creating impactful digital solutions.

Experience

Full-stack Developer

PRESENT

Axis Coding Solutions, Lahore, Pakistan

- Developed and maintained dynamic web applications using Laravel, PHP, React, and MySQL, ensuring smooth integration between front-end and back-end systems.
- Collaborated with cross-functional teams to design and implement scalable, high-performance solutions tailored to client needs.
- Optimized existing codebase and improved application performance, reducing load times and enhancing user experience.
- Worked closely with clients to gather requirements, troubleshoot issues, and deliver solutions on time.
- Integrated third-party APIs and built custom features to expand functionality and enhance product offerings.
- Followed best practices in version control (Git), debugging, and testing to ensure code quality and reliability.
